

Energy Management Policy

At Mankind Pharma, we are fully committed to achieve Energy Excellence to ensure our every single step taken in the field of Energy & Natural Resource conservation help us to build a sustainable future for the society.

We achieve the same by

- ❖ Complying with all laws and regulations related to energy usage and CGMP requirements as applicable to our operations
- ❖ We create culture to encourage our employees and contract workers to report energy losses thereby promoting and executing energy conservation ideas related to Water, Power and Fuel
- ❖ We reduce our Carbon footprint & Greenhouse gas emission by optimizing energy usage & promote usage of renewable energy wherever possible
- ❖ We periodically conduct Energy Efficiency improvement studies and audits to identify & implement potential untapped areas to conserve energy
- ❖ We provide adequate resources for effective and continual improvement in Energy Management System of metering, monitoring and control
- ❖ We adopt best practices through external benchmarking and providing regular awareness trainings to all employees and contract workers
- ❖ We create a system to continuously review effective implementation of Energy Management Policy

This policy is applicable to all Mankind employees & facilities with a view to involve & motivate all the persons working in the organization to enhance our efforts for energy conservation.
